

Data-driven risk management & service solutions for residential properties

Cocoon identifies property risks for insurance carriers and agents, while providing policyholders with service and support to manage those risks and protect their home.

Insurance Carrier & Agency Products

Cocoon's products reduce claims leakage, improve underwriting, and minimize residential property risks.

Claims Administration

- End-to-end administration
- Restoration pro dispatch
- Policyholder support
- Service documentation

Self-Inspection Application

- Simple user experience
- White labelling
- Data output options
- Easy set-up and support

Home Care Plans for Policyholders

- Promotes home maintenance
- Prompts risk mitigation
- Reduces policyholder risk
- Home health check-ups & reports

Property Data

- Accurate, up-to-date data
- Property exterior and interior
- 360° view of hazards and risks
- Maintenance & risk mitigation data

Why Work With Cocoon?

1.

Trusted Support

We work with you to deliver the best solution for your needs, and enhance the policyholder experience.

2.

Data With Service

We bridge property data with service, claim administration and the prediction & prevention of risks.

3.

Win-Win Focus

We get you the data you need and your policyholder the support they need to reduce risks and protect their home.
